(D) (Cont'd)

For originating access minutes of use associated with calls placed to 700, TFC and 900 numbers which terminate on a Switched Access Service assessed Carrier Common Line charges, the customer shall report as follows: Effective on the first of January, April, July and October of each year, the customer shall provide a revised report of the percentage of total interstate 700, TFC and 900 originating minutes of use that terminate in a Switched Access Service assessed Carrier Common Line charges. The customer shall forward the revised report to the Telephone Company, to be received no later than 15 days after the first of each such month (i.e., January, April, July and October). The revised report will serve as the basis for the next three months billing (i.e., beginning the first of February, May, August and November) and will be effective on the customer's bill date for that service. No prorating or backbilling will be done based on the report. In the event the customer does not supply a report, the Telephone Company will assume the percentage to be the same as that provided in the previous quarterly report.

If a billing dispute arises concerning the customer provided report, the Telephone Company will request that the customer provide the data the customer used to determine the percentage. The customer shall keep records from which the reported percentage can be ascertained. The Telephone company will not request such data more than once a year. Upon request by the Telephone Company, the customer shall make records available for inspection as are reasonably necessary for purposes of verification of the percentages and shall supply the data within 30 days of the Telephone Company request.

For those cases in which a report has never been received from the customer, the terminating premium access or non premium access per minute charges will apply to all 700, Toll Free Code and 900 calls.
